

CHRISTIANS' WORK IN FOREIGN LANDS

HOW WORD OF THE LORD HAS
BEEN SPREAD.

Committee on Missions Reports Progress at the Session of the Presbyterian General Assembly at Eagle Lake, Ind.—Splendid Work Done By Devoted Men.

Eagle Lake, Ind., May 27.—The first order Wednesday in the Presbyterian general assembly was the report of the committee on foreign missions.

The report of the board of foreign missions showed that efforts had been made to curtail expenses as far as possible in view of the reduced receipts, but in spite of such efforts an increased deficit was reported. A large part of it was due to a falling off in the item of legacies.

It was suggested that the extra effort to extinguish the debt of the board had an effect on contributions to the cause of foreign missions. Special praise was given to the work of the women's boards and to the young people's societies.

Six foreign missionaries died and eighty-three were sent out during the year, a large proportion of whom, however, returned to former fields of labor.

The receipts were as follows: From churches, \$270,479; women's boards, \$299,115; Sabbath schools and young people's societies, \$54,049; legacies, \$89,736; miscellaneous sources, \$95,549. Unused appropriations and the sale of properties on the field increased the assets by \$60,129.

The total expenditures were \$936,061, of which \$57,621 was for administration and printing. The total debt amounted to \$113,239, which was reduced by receipts from the anniversary reunion fund to a net debt of \$97,454.

The largest appropriations were made for work as follows: China, \$174,697; India, \$167,373; Japan, \$78,145; South America, \$80,080; Syria, \$59,055; Siam and Laos, \$71,114; Persia, \$73,193; Africa, \$41,365.

The board has securities to the amount of \$257,580, the interest on which is available for current work. It also owns securities of \$38,102 upon which it has not yet realized and special funds aggregating \$366,866, of which \$135,455 belongs to the permanent fund.

The Presbyterian building in New York furnished the board \$929,885, of which \$54,740 belonged to the interest account and \$14,203 represented taxes. Loans on the building aggregated \$610,000 and \$17,054 had been received from rentals. The gifts made toward the building amounted to \$270,893.

The selection of Charles W. Hand of Brooklyn as treasurer of the board was announced.

At the beginning of the afternoon session James Yerrance of New York, chairman of the committee on publication and Sabbath school work, reported on the operations of that board during the last year.

The receipts of the Sunday school department were \$13,611, a decrease of \$5,357 from last year. Seventy-six missionaries have been in commission. The expenditures amounted to \$13,330 less than last year, the total being \$111,633. Operations have been carried on in twenty-two states and territories, and schools organized or reorganized to the number of 1,327, a net decrease of twenty-six for 1896 and 1896. The number of teachers and scholars were 60,503.

Work of the day closed with the report of the special committee on church temporalities, offered by the Rev. Dr. John Fox of Brooklyn. By the adoption of the report the general assembly overtures the presbyteries concerning two alterations of the form of government, tending to define more closely the powers and duties of the sessions, deacons and trustees in the management of church affairs, in temporal and other matters.

Elder John Wanamaker lectured at night at the Presbyterian church of Warsaw on "The Present Needs of Our Country." The popular meeting at the Auditorium was devoted to the cause of foreign missions, and many workers from the field told of their labors and their prospects.

EPISCOPAL FINANCIAL SCANDAL.

Charges of Mismanagement of Griswold College Funds.

Davenport, Iowa, May 27.—The diocesan convention of the Episcopal Church of Iowa adjourned Wednesday afternoon. The question of the appointment of a coadjutor bishop of the diocese resolved itself into a financial problem, Bishop Perry agreeing to a reduction of \$1,000 in his salary to support the coadjutor if another \$1,000 were provided annually by perpetual endowment and \$2,300 were levied upon the parishes by irrevocable assessment for the support and railway expenses of the coadjutor. A committee, headed by Dr. C. A. Schaeffer, of Iowa City, president of the state university, will attempt to secure the endowment.

Charges were made by Rev. S. R. J. Hoyt, archdeacon, to the effect that the trustees of Griswold College had been criminally negligent in mismanaging the funds of that institution.

Covenanters at Beaver Falls.

Beaver Falls, Pa., May 27.—The sixty-eighth session of the reformed Pres-

byterian church of North America, otherwise known as "covenanters," convened in the Reformed Presbyterian church in this city Wednesday, and will continue in session for eight or ten days. Over 200 delegates are present, including ministers from Canada, Nova Scotia, New Brunswick and several who have been serving as missionaries in Syria. The first day's session was taken up with the constitution of the court, ascertainment of the delegates, reports of committees on statistics, mission conference and the synod's finances.

United Presbyterians in Session.
Rock Island, Ill., May 27.—The thirty-ninth annual meeting of the General Assembly of the United Presbyterian church of North America commenced here Wednesday, the retiring moderator, Dr. James White of Kansas City, preaching his annual sermon. An address of welcome in behalf of the local ministerial union was delivered by Rev. C. O. McCulloch, of the First Methodist church. The assembly adjourned after the constituting prayer by the moderator, calling of roll and election of new moderator being deferred until morning.

Iowa Epworth League Officers.
Fairfield, Iowa, May 27.—The Epworth league convention of the Keokuk district elected the following officers for the coming year: President, Prof. S. D. Willits of Bentonport; first vice-president, Miss Bessie Clark of Fairfield; second vice-president, Walter Condon of Bloomfield; third vice-president, Walter Phillips of Seymour; fourth vice-president, Mrs. Ellis of Salem; secretary, Miss Lena Chafmen of Keokuk; treasurer, A. Frame of New Boston; superintendent junior league, Mrs. M. D. Abbott of Cantrill.

Women Discuss Home Missions.
Dayton, Ohio, May 27.—The second day's session of the Women's Home and Foreign Missionary Society of the Evangelical Lutheran Church was devoted to a discussion of "Home Missions." The officers' reports were read as follows: Corresponding secretary's report, Miss M. H. Morris, Baltimore, Md.; treasurer's report, Mrs. A. V. Hamma, Baltimore; executive committee's report, Mrs. E. S. Prince, Springfield, Ohio; historian's report, Mrs. E. B. Scholl, Baltimore.

Indiana Conference at Wabash.
Wabash, Ind., May 27.—The annual meeting of the North Indiana Conference of the Woman's Home Missionary Society of the Methodist Church met here Wednesday. About 125 delegates are present, representing auxiliaries in the Fort Wayne, Goshen, Warsaw, Muncie, Richmond and Kokomo districts.

INDIANA BANKER INDICTED.

John F. Johnson of Logansport Accused of Many Violations of Law.

Indianapolis, Ind., May 27.—The federal grand jury Wednesday found nine indictments against John F. Johnson, late president of the State national bank of Logansport, Ind. He is charged with violating many sections of the national banking law, including forgery. Fifteen counts in all have been prepared.

Bank Examiner Caldwell found in a private box in the vault of the wrecked State national bank private correspondence of Johnson which shows where the money went. Johnson was interested with ex-United States Treasurer J. N. Huston of Connorsville, Ind., in phosphate beds in Virginia, and the loss will amount to probably \$100,000. He was also an extensive investor in oil and gas land leases near Gas City, Ind. Colorado and Wyoming mining stocks swallowed up another big sum. There were heavy losses in wheat in Chicago and Toledo bucket-shops and boards of trade. The shortage already foots \$350,000. Reorganization is not thought to be possible, and a receiver will be appointed.

Text-Book Bills Die.

Springfield, Ill., May 27.—What is tantamount to a deathblow was administered Wednesday by the senate committee on education to the uniform and the free textbook bills. By unanimous vote action on the latter was deferred until June 3, while a similar course was taken on the former by a vote of 8 to 7. As the date of sine die adjournment has been fixed at June 4, the bills cannot be passed at this session unless this action should be reconsidered, which is not among the probabilities.

Makes Plea for Havemeyer.

Washington, May 27.—The government rested its case against Henry O. Havemeyer, the president of the American Sugar Refining Company, after the noon recess Wednesday. Thereupon Mr. Johnson of Philadelphia, the leading counsel for the defense, moved that the judge instruct the jury to find the defendant not guilty. Mr. Johnson made an argument of an hour and a half in support of his motion, and when he concluded District Attorney Davis asked for an adjournment, which was granted.

Regent of Royal Arcanum.

Boston, Mass., May 27.—The Supreme council of the Royal Arcanum unanimously elected Edson M. Schryver, Maryland, supreme regent. The question of a change in assessments was practically settled by the postponement of action for another year.

DINGLEY BILL WON FIRST TEST VOTE

STRENGTH OF THE TARIFF
BILL MANIFESTED.

Amendment Proposed by Senator Vest Is Promptly Voted Down—Tobacco Manufacturers Make a Protest Against Proposed Schedule—Commerce Committee Holds Up the Bill.

Washington, May 27.—The first vote on the tariff bill was taken in the senate Wednesday. It came after a two hours' debate on the item of boracic acid, which, although comparatively unimportant, afforded an opportunity for the first alignment of the various elements. Mr. Vest (Mo.), a Democratic member of the finance committee, moved to make the rate on boracic acid 3 cents instead of 5 cents per pound, as provided by the committee. This presented a direct issue between the committee and the opponents of the bill. The amendment was defeated—yeas 20, nays 34. The vote was largely on party lines. The affirmative was made up of nineteen Democrats and one Populist, Heltfeld. The negative was made up of twenty-nine Republicans, two Democrats, McEnery (La.), and White (Cal.); two silver Republicans, Cannon (Utah) and Jones (Nev.), and one Populist, Stewart (Nev.).

The debate was participated in by Senators Vest, Jones (Ark.), Aldrich, Perkins, White, Caffery, Gray and Stewart. Seven paragraphs of the bill were considered during the day, the committee being sustained in each instance. The resolution was agreed to authorizing the secretary of the navy to employ any suitable ship in forwarding relief supplies to India.

Representatives of practically all the tobacco manufacturers in the United States, with the exception of the cigar manufacturers, met here to protest against the proposed advance of 2 cents a pound in the tax on tobacco contemplated in the senate amendments to the tariff bill. There were present and represented about 150 manufacturers. The total tobacco output, exclusive of cigars, of the United States is about 300,000,000 pounds annually, and of this amount over 250,000,000 pounds was represented.

Holds Up Pooling Bill.

Washington, May 27.—The commerce committee of the senate met Wednesday to report their railway pooling bill to the senate. It was decided that, in view of the important decisions of the Supreme court affecting the interstate commerce act rendered on Monday, the pooling bill would be held up a few days to enable the committee to examine the decisions of the court. It may be necessary to change some of the provisions of the bill to conform to these decisions.

Rio Grande Still Rising.

El Paso, Texas, May 27.—The Rio Grande continues to rise, and an army of men are strung out on 6th street working on the new levee that was thrown up Monday night when the old levee broke. At noon Wednesday the levee in front of City Recorder C. B. Patterson's residence broke. The waters rushed into the house, almost drowning the recorder and a friend who was with him. Mr. Patterson had just moved his family out. His residence was washed away, together with a dozen other houses in the neighborhood. Several hundred poor Mexican citizens who resided on the river front have had their houses washed away and are camping out on vacant lots.

The Manitoba School Question.

Windsor, Ont., May 27.—The biennial convention of the Grand Orange lodge of British North America is in session here. N. Clarke Wallace, grand master, in his address urged the brethren to stand firm on the Manitoba school question, which, he said, was not settled yet, as the pope had a delegate in Canada looking into the question, and Premier Laurier had told the Catholics of Manitoba to keep quiet now and they would get better terms later.

Preacher Is Short \$9,000.

Washington, May 27.—The Rev. A. G. Harrison, pastor of the People's tabernacle, and his family, disappeared from their home here Tuesday, and it is reported that Mr. Harrison is \$9,000 short in his accounts. He was given entire charge of the church funds, and, according to the charges, failed to pay bills for furniture, carpets and a church organ, for which the money was given him, and also borrowed large sums from his parishioners.

Fuller Butterine Bill Wins.

Springfield, Ill., May 27.—At the close of its session Wednesday the house took up Mr. Fuller's butterine bill on third reading, and passed it by a vote of 113 to 21. It prohibits the coloring yellow of any substitute for butter, and is the measure for which the dairy interests of Illinois have been earnestly working. It now goes to the senate.

McLaurin Named for Senator.

Columbia, S. C., May 27.—Gov. Ellerbe has commissioned John Lowmes McLaurin senator of South Carolina until the election of his successor by the legislature.

BRITAIN THREATENS TO TAKE A HAND

POWERFUL NATIONS SCOWL
AT EACH OTHER.

Lord Salisbury Declares the Sultan of Turkey Shall Not Be Allowed to Occupy Thessaly—Why Germany Signed the Collective Note—Action Relieved the Situation.

London, May 27.—A special dispatch from Athens says that Great Britain has declared her intention to abandon the concert of the powers if it be determined that the occupation of Thessaly by the Turkish troops shall be prolonged until Greece shall have paid the war indemnity demanded by Turkey.

Constantinople, May 26.—The withdrawal of Germany's objection to the collective note of the powers on the subject of the terms of peace between Turkey and Greece was due to the representations which the powers, especially Russia, made to Berlin.

Germany, in addition to objecting to sign the note until Greece consented to abide by the terms agreed upon, objected to the indemnity clause, being opposed to the principle of indemnity being settled forthwith and on the basis of the present resources of Greece.

This attitude upon the part of Germany is attributed to a desire to rearrange the Greek finances in a manner giving better security to the German bondholders. The adhesion of Germany to the action of the powers in this respect has greatly relieved the situation.

ILLINOIS TAXES ARE HIGHER.

The New Levy Bill Indicates a Rate of 58 or 60 Cents to the \$100.

Springfield, Ill., May 27.—The tax levy for state purposes for the years 1897 and 1898 will be higher than for several years past. The senate and house finance committee have agreed upon a tax-levy bill. They figure upon a basis of appropriations by the XLth general assembly of about \$9,000,000, and the addition of the \$2,000,000 levy for school purposes will make the amount \$11,000,000, which is nearly \$1,000,000 more than the amount of appropriations made two years ago.

The bill agreed upon provides for raising by taxation for general state purposes in 1897 \$3,600,000, and in 1898 \$3,000,000. For the two years, therefore, the amount to be raised by taxation, the \$2,000,000 for the school fund included, will be \$8,600,000. It is figured that the remaining \$2,400,000 of the \$11,000,000 expenditure will be met by other revenues of the state.

Plan to Stop Overproduction.

Boston, Mass., May 27.—A movement which is expected to develop into a more or less general curtailment of production among New England cotton mills is to be started next month by the mills of the Dwight Manufacturing company at Chicopee, Mass.; the Lyman company at Holyoke, Mass., and the Great Falls Manufacturing company at Somersworth, N. H. All the mills make sheeting, shirting and drills and operate 350,000 spindles and about 9,000 looms. The curtailment will probably last during June, July and August.

Abundant Relief in Cuba.

Washington, May 27.—Consul-General Lee cabled the state department from Havana that the amount of supplies he has now on hand there for the relief of American citizens in distress is abundant and will last for some time. Presumably this statement applies generally to all the consulates, for the consul-general has been in consultation with his subordinate consuls on this matter.

Heavy Rains in Kansas.

Troy, Kas., May 27.—Five inches of rain fell in this vicinity between midnight and 2 o'clock Wednesday afternoon, causing heavy damage to growing crops. Terrific lightning prevailed in the morning, and several houses were shattered. All the small streams are out of bank, and washouts have resulted on the St. Joseph & Grand Island and the Burlington roads.

Sixteen Sailors Picked Up.

Provincetown, Mass., May 27.—The sixteen members of the crew of the Provincetown fishing schooner, J. P. Johnson, who went astray on the western bank last Friday, arrived here Wednesday. All were well, although they suffered much from hunger during Saturday. Sunday morning the Norwegian bark China, Capt. Anderson, from Hamburg, hove in sight. The men were taken on board and cared for. They were only a day behind their vessel, which reached here yesterday and reported the loss of her men.

Pingree's Pet Bill Killed.

Lansing, Mich., May 27.—Gov. Pingree Wednesday asked the legislature to rescind its resolution fixing May 31 as the date of sine die adjournment, urging there was much important legislation still to be enacted. The house promptly did so, fixing June 14 as the date, but the senate, by a vote of 24 to 8, adhered to May 31. Then, to further show its independence of the governor, it killed his pet bill to reduce passenger fares in the upper peninsula to 3 cents a mile.

Guns for German Army.

Berlin, May 27.—The reichstag adopted a credit of 30,000,000 marks (\$7,500,000), for the purpose of rearming the German artillery with improved field pieces.

DAILY BASE BALL REPORT.

Results of the Games Played in the Various Leagues Yesterday.

The Colts gave their admirers a glimpse of good playing yesterday. Washington lost to St. Louis and Chicago regains tenth place. Philadelphia has been on the slide for some time, losing nine straight games. Pittsburgh and Cincinnati shifted places again, the former dropping to third place through its defeat by Baltimore. Hurst's decisions in the game aroused the bleacher crowd and resulted in a furious attack on the umpire after the game. Philadelphia yielded sixth position to Louisville as a result of its defeat by Cleveland in another hot finish and fell to eighth, Brooklyn remaining at seventh. The scores:

Work of Cumberland Presbyterians.

Chicago, May 27.—A new committee on pastors and supplies was added to the list of controlling bodies of the Cumberland Presbyterian church by the commissioners at yesterday's session of the general assembly. No minister will be allowed to accept a charge without the consent of this committee. A motion recommending the co-operation of the Cumberland branch with all other branches of the Presbyterian faith, was ably supported. It was opposed on the ground that enough benefits would not result from the innovation to justify the expense of sending delegates to the different meetings which would be necessary in order to keep in touch with the other branches.

A BIG STRIKE IS IMMINENT.

The Plate Manufacturers Will Not Accede to Employees' Demands.

Pittsburg, Pa., May 27.—The tin-plate manufacturers are getting ready early to grapple with the wage question. A big meeting of the manufacturers took place Wednesday, at which the local tin-plate manufacturers were represented, as well as a large number from out of the city. It was practically decided not to accede to the demands of the workers for an increase, and another meeting will be held to decide on methods to meet all contingencies.

The demands of the Amalgamated Association of Iron and Steel Workers are for an advance of 15 per cent at this time. The tin-plate workers are fairly well organized, and there are only four or five non-union plants in the country.

The refusal of the manufacturers to accede to the demands of the workers means a protracted strike, unless the tin-plate wage committee of the amalgamated is given discretionary powers. The present scale expires about June 15, and the workers and manufacturers will probably be in conference next week.

Gold Men for War.

Des Moines, Iowa, May 27.—A conference of the state central committee and leaders of the gold Democrats was held Wednesday for the purpose of discussing the attitude the party is to take in the coming campaign. It was unanimously decided to hold a convention in this city July 7. It was also decided to wait until after the silver conventions are held, June 23, and if the Chicago platform is again sanctioned by the silver wing then to place a state ticket in the field, and carry on an aggressive campaign.

General Gomez to Resign.

Philadelphia, Pa., May 27.—Advices from Cuba have been received by the local junta to the effect that Gen. Gomez will temporarily resign as commander of the insurgent forces, and come to this country as "Secretary of War pro tem." of the Cuban republic, to confer with President McKinley on the Cuban situation. During his absence Gen. Garcia will command.

To Enlarge French Navy.

Paris, May 27.—The big naval scheme proposed last December to the budget commission by Edouard Lockroy, former minister of marine, calling for the sum of 100,000,000 francs over and above the regular naval expenses, has been endorsed by the naval committee of the chamber.

BIG FIRE RAGES AT ASHLAND, WIS.

Great Northern Grain Co.
Lose Heavily.

EXTENSIVE PLANT WAS DESTROYED THIS MORNING.

But For a Heavy Shower of Rain, the Flames Would Have Communicated to the Residence District—As it is, the Loss is Over Two Hundred Thousand Dollars—Other Buildings Are Damaged—Elevator Worked Night and Day the Year Round.

Ashland, Wis., May 27.—[Special]—The great Northern Grain Company flour mill was entirely consumed by fire early this morning. The total loss is \$205,000. Had it not been for a heavy thunder shower about 3 o'clock a. m., the fire might have spread into the residence portion of the city.

Governor Fildes' residence caught fire six times and his loss is considerable.

The residence in which Manager Gifford resides, belongs to the Northern grain company and is badly burned.

The tramway leading to the Wisconsin central dock, is charred and unsafe and the Wisconsin telephone company suffers a small loss by damage to phones and motors.

The northern grain company employed twenty men the year around, night and day, exclusive of the office force and traveling men.

The stockholders will meet in Ashland in a few days to decide whether to rebuild or not.

Fire at Dexter, Minn.

Austin, Minn., May 27.—Fire broke out in the village of Dexter, this county, about 12 o'clock Tuesday night and about half of the village was destroyed. The fire originated in Juleson's hardware store and communicated to all the stores and buildings on the west side of Main street, burning the Milwaukee depot and all its buildings and water tank, the lumber yards and elevators and warehouses. The loss has been estimated at from \$50,000 to \$75,000.

Norwegian Town Fire Swept.

Christiania, Norway, May 27.—The town of Levanger, about thirty-five miles northeast of Trondhjem, on the Trondhjem Fiord, has been almost completely destroyed by fire. The conflagration has swept away four-fifths of the buildings, and is still raging.

W. V. Powell Re-Elected.

Peoria, Ill., May 27.—The Order of Railway Telegraphers adjourned sine die at 4 o'clock Thursday morning, after a night's session. W. V. Powell was re-elected grand chief. A ladies' auxiliary was organized, with Mrs. W. H. Allison, of Toronto, as president; Mrs. W. V. Powell, of Peoria, as vice president, and Mrs. F. M. Lechner, of Kansas City, as secretary and treasurer. The place of holding the next convention was referred to the grand officers and grand executive committee. The convention declared in favor of federation of railroad brotherhoods, but the proposition to join the National Federation of Labor was voted down.

Gold Men for War.

Des Moines, Iowa, May 27.—A conference of the state central committee and leaders of the gold Democrats was held Wednesday for the purpose of discussing the attitude the party is to take in the coming campaign. It was unanimously decided to hold a convention in this city July 7. It was also decided to wait until after the silver conventions are held, June 23, and if the Chicago platform is again sanctioned by the silver wing then to place a state ticket in the field, and carry on an aggressive campaign.

Street Railway Bill Up.

Springfield, Ill., May 27.—Allen's bill amending the street-car and dummy law by empowering city councils to grant franchises for fifty years, instead of twenty years (the present limit), was offered in the house Wednesday afternoon as a report from the committee on judiciary, and was advanced to second reading and made a special order for 11 o'clock today.

General Gomez to Resign.

Philadelphia, Pa., May 27.—Advices from Cuba have been received by the local junta to the effect that Gen. Gomez will temporarily resign as commander of the insurgent forces, and come to this country as "Secretary of War pro tem." of the Cuban republic, to confer with President McKinley on the Cuban situation. During his absence Gen. Garcia will command.

To Enlarge French Navy.

Paris, May 27.—The big naval scheme proposed last December to the budget commission by Edouard Lockroy, former minister of marine, calling for the sum of 100,000,000 francs over and above the regular naval expenses, has been endorsed by the naval committee of the chamber.

PASTOR INSTALLED
IN LOCAL FIELD

INTERESTING SERVICES AT
CONGREGATIONAL CHURCH.

Rev. Robert C. Denison Is Formally
Put in Charge of Affairs—Rev. A.
A. Kendrick of St. Louis, Preaches
the Installation Sermon—Charges
to Pastor and People.

Rev. Robert C. Denison, was formally
installed as pastor of the Congrega-
tional church last evening. The
examination, as has been stated, oc-
curred in the afternoon. H. A. Miner,
of Madison, was the moderator of the
council, and C. H. Macomber, of Be-
loft, was secretary.

The ladies served supper at 6 o'clock,
and at 7:30 the installation services
began with Rev. Mr. Minor presiding.
An organ solo by Mrs. F. E. Lewis,
and the singing by the choir and audience
opened the meeting. Rev. H. O.
Spilman, of Edgerton, invoked the
divine blessing, and the anthem,
"Lord of Heaven" was sung by the
choir. The scripture lesson was read by
Rev. Mr. Dennis of Emerald Grove and
a vocal duet by Mrs. Josephine Farns-
worth, and Inda Taylor followed.

The installation sermon followed,
being preached by Rev. A. A. Kendrick,
of St. Louis. He took for his
text the words found in the third
verse of the general epistle of Jude:
"And exhort you that ye should earnestly
contend for the faith which was
once delivered unto the saints."

Three Dominant Functions.

Rev. Mr. Kendrick said that Faith,
Hope and Charity were three ruling
forces in christian character—hope
dealing with the future, charity
with the present and faith with the
past. He made a plea for the bible,
saying that it must not be changed if
it is to be final. Positiveness of con-
viction was needed, he insisted. Ralph
Waldo Emerson failed as a preacher,
because there was too much negation
in his preaching and he said once he
did not think there was much to the
church. In closing he spoke of the
new pastor and his work and expres-
sed the hope they would work har-
moniously together and achieve great
results.

The singing of a hymn by the choir
and the audience followed the installa-
tion sermon. The members of the
church and society who had joined in
calling the pastor, arose while the in-
stallation prayer was offered by Rev.
C. A. Wright, of Plattville.

The charge to the pastor was deliv-
ered by Rev. W. W. Sleeper, of Beloit.
After referring to the good advice that
had already been offered, Rev. Mr.
Sleeper said the pastor had been sent
here to be a light to the people. If
more light was needed the speaker
would refer him to Timothy, "whose
advice was better than he could give."
Rev. Mr. Sleeper then read a number
of selections from Timothy. In conclu-
sion he extended the well wishes of
the council and pastors.

Charge to the People

The charge to the people was deliv-
ered by Rev. Dr. M. G. Hodge. In
opening his remarks, the Doctor
spoke of the pleasant relations exist-
ing between the Baptist and Congrega-
tional churches. His first sugges-
tion, he said, would be "do not let the
pastor stand between you and God,"
even if the time did come when the
church might attribute its growth to
human rather than divine power.
Continuing, he said, "do not expect
the pastor to do all the work of the
church. There is much work that is
put upon the pastor that members of
the church might do. He was sup-
posed to preach two sermons on Sun-
day, visit the sick, attend funerals,
make pastoral calls, attend prayer
meetings and other gatherings of a
religious nature, look up new arrivals
and try and get them into the church,
and secure help for the needy. Some
of this work could just as well be done
by the members of the church.

"Don't trust your pastor to experi-
ment on your pew when you are not
in it. Too many people expect preach-
ers to make live christians out of
empty pews.

A Case in Point.

"Don't expect your minister to
preach a great sermon every time. He
won't do it. Many times he will give
you a good, plain religious talk, but
some day he will have a sermon in
which he has put his best work and
brightest thoughts. When he does
you want to be there to hear it. You
can't tell what day it will be, so you
had better be there every day so as not
to miss it."

In this connection Dr. Hodge told of
a dream that he had recently. He
said that he dreamed that a lady in

his church came to him after a sermon

said:
"That is the poorest sermon you
ever preached."

There was some comfort in that
remark for both of them. She could
find comfort in the fact that he had
preached better ones and he could find
comfort in the fact that he had never
preached any worse.

In closing he besought the people to
pray for and assist the pastor and
voiced the well wishes that came from
his heart.

A hymn and the benediction by the
pastor closed the services and at the
conclusion the right hand of fellow-
ship was extended to the new pastor.

TAILOR MADE CLOTHING.

A Rare Opportunity For Made-To-Order
Clothing Purchasers at Zeigler's.

A great many men prefer tailor
made suits, and for these people Zeigler
has planned rather a surprise for
Friday and Saturday of this week. A
representative of one of the large
tailoring firms in Chicago will be in
the city with a very complete line of
whole pieces in suit lengths. There
will be fine chevrons, Scotch suitings
of all different textures, fancy worst-
eds, black all diagonal, cashmeres
and an assortment of pantings that
will suit the most fastidious tailor
made clothing man in the city. Suits
made to measure as low as \$13.50, and
from that price up to the finest of
tailor made garments, and on any of
them a saving to the purchaser of from
\$3 to \$10. Pants from \$3 up. There
would be absolutely no ob-
ject in our having a man
come to Janesville to seek tailor orders
unless he was thoroughly competent
to take a measurement that would be
an exact fit and unless the firm he
represented had an experience and re-
putation of considerable note. The
firm in question has had over thirty
years experience and has won a re-
putation through its honest methods and
practical ideas of the tailoring busi-
ness. No stone has been left unturned
to pick up the latest ways for cutting
and fitting garments that should give
the greatest satisfaction to the tailor
clothing made public. We have had
many dealings with this firm and
never have been obliged to return a
suit to them for lack of good fitting,
quality nor has there ever been a
question as to the qualities of cloth
used in any of their suits, therefore,
we are perfectly safe in guaranteeing
every suit ordered through this house
to be a perfect fit. We will not allow
a suit to go from the store unless it is
a perfect fit, and unless the purchaser
is satisfied in every way. The gentleman
who will be with us Friday and Sat-
urday is an expert tailor, his measure-
ments are always exact and his ac-
quaintance with metropolitan fashions
makes it possible to give an individ-
ual effect to every suit that is seldom
seen in any but the larger cutting
rooms of the cities. The designs to
be shown are many of them exclusive
importations and buyers are assured
of the fact that some other man will
not have the same kind of a suit that
he is wearing. Nothing is more dis-
agreeable than to have a suit that one
is well satisfied and thinks is the only
one to be found in the city and then
have some other man pop up some day
and have a suit cut from the same
pattern as your own. An advantage
that has never been afforded to people
before is the fact that nothing but
whole pieces in the suit lengths will
be shown. The making and
handling of bicycle and golf suits has
become a prominent factor in every
clothing and tailoring establishment.
So many people ride wheels these
days that of necessity much attention
must be given to proper dress. One
of the factors of Friday and Saturday
showing of suitings will be fabrics
suitable for bicycle or golf wear. One
suit in particular that is being worn
these days is a combination suit, it
answers a double purpose as the name
implies, that of bicycle riding, and
business, or street wear and you
might say two suits for the price of
one. This suit consists of five dis-
tinct pieces, the regular business suit
of coat, vest and pants and an extra
pair of short pants and bicycle cap.
Prices on these goods are so moder-
ate that a large saving is made and
people who could not afford to buy a
bicycle suit if they had already bought
a business suit or business suit if
they had already purchased a bicycle
suit are helped out in a material manner.
These suits are practical and of course
have come to stay. Their convenience and
attractiveness make them a necessity.
This exhibit all the way through will
be the largest and most complete of
any that the city has ever seen and
simply adds another page to Zeigler's
reputation as a men's out fitter of
the up-to-date type. Nowhere in
Rock county can such a complete
clothing stock as is carried on Zeigler's
tables every day in the year be
found. The carrying of so many
goods naturally implies that a great
amount of business is done each
year and the doing of so much year
must necessitate the making of ex-
tremely low prices and the handling
of nothing but the best makes of
clothing. Zeigler watches these
points closely, therein lies a great
share of his reputation.

ALL FORMER OFFICERS BUT
ONE RE-ELECTED.

Mrs. Vie H. Campbell of Evansville
Chosen President Again After De-
claring Her Official Work Did Not
Interfere With Her Home Duties—
The Other Officers.

The Janesville delegate to the state
W. C. T. U. convention at Appleton,
returned home this morning. Much
important work was done. The ap-
propriation for the W. C. T. U. home
at Eau Claire was cut from \$1,200, as
last year, to \$1,000, and the salaries
of all the paid officers were cut. The
total amount appropriated for twenty
departments of work was \$1,716,
against \$2,055 last year.

During the election of officers dis-
cussion arose over the informal ballot
for president, it was put over to after-
noon. After the informal ballot for
president, it became apparent that
some insinuation had been made to
the effect that Mrs. Vie H. Campbell
had found the duties of the presidency
conflicted with her home duties, for
that lady took occasion in a few very
direct remarks to deny that her work
as president ever had or ever could in-
terfere with the permanent duty she
owed her home.

A prayer by Mrs. K. S. Lewis
smoothed out this little incident and
the election proceeded, resulting as
follows: President, Mrs. Vie H.
Campbell, Evansville; vice president,
Dr. Annette J. Shaw, Eau Claire; cor-
responding secretary, Mrs. W. B.
Lawson; recording secretary, Mrs.
Augusta E. O. Strong, Baraboo; treas-
urer, Mrs. Ida M. Cook, Green Bay;
editor of Motor, Mrs. M. F. Hanchett,
Madison.

All the officers were reelected ex-
cept the corresponding secretary, Mrs.
Alice A. Ames of Madison, who de-
clined, and was succeeded by Mrs. W.
B. Lawson of Baraboo. Mrs. Upham,
though positively declining to be a
candidate, received forty votes for
president.

An incident of the morning session
was the presentation of a silver berry
spoon to President Campbell by the
ladies of the convention.

A PORTER HOUSE IS BURNED

Vacant Residence Owned by a Janes-
ville Woman Destroyed.

Porter, May 27—A vacant house
here, belonging to Mrs. Mulligan, of
Janesville, was burned one night
last week by incendiaries. Mrs. B.
Riley, is reported quite ill she being
taken suddenly ill while visiting her
daughter in Dane county. This part
of the country was visited by a rain on
Saturday evening, which was needed
greatly. Since then crops are looking
fine despite the severe frost on Mon-
day night. Mrs. M. Bradley who has
been ill for the past two weeks is
very low. Dr. Fox, of Janesville, is
now attending her. Some of the
farmers are preparing the ground for
tobacco. D. E. McCarthy and wife,
of the town of Fulton spent Mon-
day here. Mr. and Mrs. P. Cullen,
of the town of Centor, were visitors on
Sunday. Thomas Ford has
purchased a new organ recently.
Andrew Nichols, had a runaway on
Sunday, which came near being a se-
rious one. The colt he was driving be-
came unmanageable, and after kick-
ing the dashboard off and otherwise
damaging the buggy, ran into a wire
fence. The horse was injured quite
badly, but the driver luckily escaped,
with only slight bruises. The ladies
S. A. society, are making arrange-
ments to give a May party in Cooks-
ville on Monday evening, May 31.
Tuckwood's orchestra furnishes music,
and everyone is cordially invited.

Spring

Is the season for new life in nature,
new vigor in our physical systems.
As the fresh sap carries life into the
trees, so our blood should give us
renewed strength and vigor. In
its impure state it cannot do this,
and the aid of Hood's Sarsaparilla
is imperatively needed.

It will purify, vitalize and enrich the
blood, and with this solid, correct
foundation, it will build up good
health, create a good appetite, tone
your stomach and digestive organs,
strengthen your nerves and over-
come or prevent that tired feeling.
This has been the experience of thou-

THE OVERFLOW OF LOCAL NEWS.

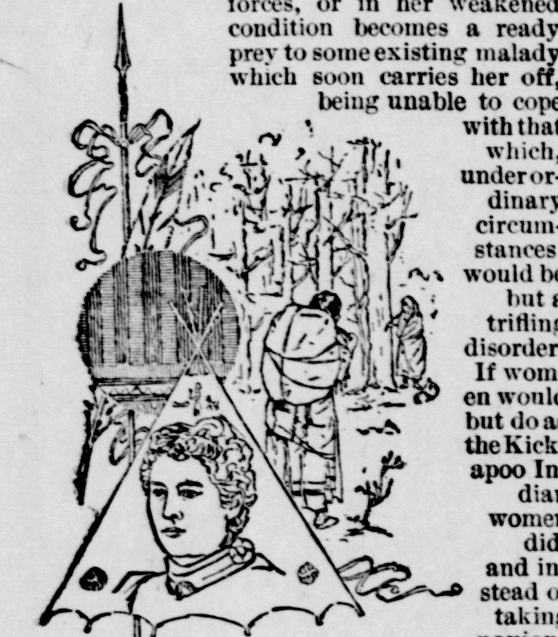

IT BROUGHT HER STRENGTH.

Story of How a St. Paul Woman was Induced to Follow the Indians' Example, and, Like Them, She Enjoyed Health.

Other Suffering Women Should Do Likewise.

The Kickapoo Indian Remedies, as Sold To-day, Are Identically the Same as They Were When Used by the Indians, and Still Prove Themselves in Every Instance to be Restorers of Health.

There are hundreds of women to-day who are semi-invalids, worse perhaps than though they were absolutely confined to their beds. They drag themselves around, unable to enjoy life, unable to attend to their work, suffering continually more or less, and with each year becoming a greater burden to their families. The cause for such troubles may often be found in a deranged condition of some of the great vital organs of the body, the stomach acting improperly, failing to digest its food as it should, the blood becoming impure, and no longer absorbing the nourishment derived by the organs from the food, the kidneys and the liver diseased and unable to expel from the body the poisonous secretions that naturally collect therein—and all this results eventually in a collapse of greater or less magnitude, until the patient either ends a life of weary invalidism by a complete breaking up of the vital forces, or in her weakened condition becomes a ready prey to some existing malady which soon carries her off, being unable to cope with that which, under ordinary circumstances, would be but a trifling disorder.

If women would but do as the Kickapoo Indians did, and instead of taking noxious drugs, follow their example and take Nature's own great remedies, health, strength and long life would be theirs. Kickapoo Indian Sagwa, the great blood purifier and invigorator of the stomach, liver and kidneys, by keeping these organs in a healthy condition, makes good health an assured fact. Mrs. Harriet Jansen of 564 Bay St., St. Paul, Minn., is one of the great army of women who had suffered for years and at last found health and strength by using Kickapoo Indian Sagwa. To use her own words, she says: "I had been an invalid for five years, and had spent a great deal of money for doctors and medicines. Received no benefit from any of them. I was induced by a friend to try Kickapoo Indian Sagwa. Three bottles made a different person of me. My appetite returned. I sleep well and enjoy myself as I used to before I was ill and life became a burden to me. I can now do my own house work again, as I had not been able to do for several years. Am gaining in flesh and my friends say I look five years younger. All this I thank God for, and bless you as the instrument in the hands of an all-wise Providence, who effected a complete cure in my case. I recommend your medicines to every one whenever the opportunity offers, and I can safely say that your Kickapoo Indian Sagwa will do all, and more than you claim for it."

We will mail free to any address, our pamphlet entitled "The Kickapoo Indian Doctor." This is full of useful information in regard to symptoms of disease, how to prevent disease, and how to cure disease. No family should be without this useful and instructive book. Address the Kickapoo Indian Medicine Company, New Haven, Conn.

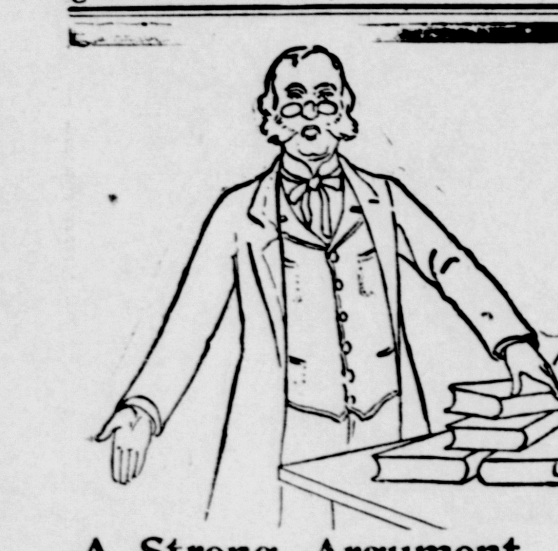

About Laces.

The laces that are so largely used today for trimming you will want at the lowest prices and of the best quality. We are showing hundreds of pieces of all kinds of new and popular designs and styles of laces in white cream, etc., from 2 cents to \$2.00 a yard. They are of exceptional value and we guarantee them to be cheaper in price than other stores in the city would wrap them up for. We make an especially strong point of laces from 9 to 47 cents per yard. They are the popular prices and are the goods that usually are bought for every day uses, therefore, we have made an exceptional effort to have a stock from which a selection can be made with comparative ease. If you are in need of a few yards of laces no matter what the kind or prices from the narrow valences to the fine netted tops do not fail to talk with us. We will save you money. Bort, Bailey & Co.

Cascarets stimulate liver, kidneys and bowels. Never sicken, weaken or gripe, 10 cents.

Everybody Says So.

Cascarets Candy Cathartic, the most wonderful medical discovery of the age, pleasant and refreshing to the taste, act gently and positively on kidneys, liver and bowels, cleansing the entire system, dispel colds, cure headache, fever, habitual constipation and biliousness. Please buy and try a box of C. C. C. to-day; 10, 25, 50 cents. Sold and guaranteed to cure by all druggists.

BEDRIDDEN.

FIFTEEN YEARS OF SUFFERING.

The Doctors Wanted Seven Hundred Dollars to Attempt the Cure.

The following is a letter we received a short time ago from Mrs. M. C. Hinkley, 602 North Mississippi St., Indianapolis, Ind.

Gentlemen:—While suffering intensely from piles, I became interested in your advertisement in one of our daily papers and procured a package of your Pyramid Pile Cure from our druggist. Contrary to my expectations, the relief was instantaneous. I used two boxes of the Pile Cure and one of the Pills and am convinced that they are the only cure for piles on the market. I have been a sufferer from piles for fifteen years and have been confined to my bed about one-half of the time, expecting and wishing for death for the pain was so great. I went to the college here and the doctors said my case was a new one to them, the great pain having brought on a large rupture, which they wanted seven hundred dollars to cut out. I was very much afraid that death would result from the operation. I feel as though I can't praise the Pyramid Pile Cure and the Pyramid Pills too highly, as I am convinced that they saved my life. Before using your cure I weighed only ninety pounds and now I weigh one hundred and fifty and feel as well as I ever did in my life. You are at liberty to use this testimonial in any manner you may see fit, as I want all sufferers from this terrible disease to know that there has at last been compounded a remedy that will cure piles.

MRS. M. C. HINKLEY.

There is no need of the danger, pain and expense of a surgical operation for any form of piles. The Pyramid Pile Cure does the work without pain and is the safest and best. Remember also that the Pyramid Pills are a certain cure for constipation, acting without griping and restoring natural action to the bowels.

The Pyramid Pile Cure is sold by druggists at 50 cents and \$1.00, and the Pyramid Pills at 25 cents, or by mail from Pyramid Co., Albion, Mich.

BET SUGAR PROSPECTS.

Wisconsin's venture in the sugar beet industry did not meet expectations. The reason for the failure was so distinctly apart from the ordinary conditions, however, that the first year's experience may be regarded as hopeful. This is the view taken by Professor H. W. Wiley, chief of the division of chemistry in the United States Department of Agriculture, and formerly director of the sugar beet experiment station in Nebraska. The failure was due to inexcusable carelessness in storing the beets—not to any deficiency in the beets themselves or in the apparatus.

Experiment has shown that, so far as temperature alone is concerned, the sugar beet attains perfection in a zone of varying width, through the center of which passes the isothermal line of 70 degrees F. for the months of June, July and August. On a map in Professor Wiley's pamphlet the beet sugar belt of the United States is traced; its dimensions are likely to surprise people who have made no study of the subject. The isothermal line referred to begins for the United States near the city of New York and passes up the Hudson river to Albany; thence turning westward, it runs near Syracuse and proceeds in a southwesterly direction, touching the shore of Lake Erie near Sandusky, Ohio; assuming, then, a northwesterly direction it enters Michigan and reaches its highest point in that state near Lansing; next taking a southwesterly trend, it enters the state of Indiana near South Bend, passes through Michigan City, and then pursues a northwesterly course through Chicago and Madison, reaching its highest point in Minnesota near St. Paul; thence it inclines southwesterly until it reaches the state of South Dakota, where it again turns northwesterly and touches its highest point in North Dakota just above the forty-fifth parallel of latitude, where it crosses the Missouri river. The isothermal line then turns almost due south, following very closely the one hundred and first degree of longitude until it reaches the state of Nebraska, near the southeast corner of Colorado; pursuing a southwesterly course through the last named state, it attains at Pueblo the one hundred and fifth degree of west longitude, whence it crosses in a slightly southeasterly direction into New Mexico, turns presently at a right angle to the west and crosses the one hundred and fifth degree of longitude at about the thirty-second degree of latitude. Thence it stretches westward in a very irregular and fureted line through the states of Arizona, California, Utah, Idaho, Oregon and Washington.

Extending for 1000 miles on each side of the isothermal line thus defined is the belt which for the present may be pronounced best adapted to the production of beet sugar. It is no question that there are many districts lying outside of this zone, in which the sugar beet will be found to thrive, but this will be due to some exceptional qualities of the climate or soil. A mean temperature of 70 degrees F. during the three summer months must not indeed be regarded as the only element of temperature which is to be taken into consideration. In those regions where the winters come early and are of unusual severity, greater difficulties will be encountered in the production of sugar from the beet than where the winters are short and mild. Moreover, in addition to thermal conditions, those of rainfall must be studied. The sugar beet requires a certain amount moisture in order to produce a normal crop; where there is little subterranean moisture, and where irrigation is not practicable, the prospective beet growers should secure localities where an average summer precipitation of from two to four inches per month can be counted on.

Prof. Wiley mentions further that the least favorable soil for the cultivation of the sugar beet is a stiff clay and that the soil most suitable is a sandy loam, a soil that is, presenting a happy equilibrium between organic matters, clay and sand. In general it may be said that any soil which will produce Indian corn, wheat, or potatoes will under proper cultivation, produce a good crop of sugar beets. The soil on which the beet root is grown, however, should be reasonably level and well drained.

Applying these conditions of successful beet culture to Wisconsin it will be seen that hopes of profitable results are well founded. Professor Wiley has considerable to say along this line as to the value of the crop. From several estimates based on actual experiments, Professor Wiley concludes that a net profit of from \$8 to \$15 per acre may be looked for from the sugar beet in localities not many miles distant from a factory when the proper methods of culture are pursued. Much larger profits have been obtained by practical beet growers in Nebraska and California, whose experience is quoted in the pamphlet. The yield under normal conditions should be fifteen tons of beet roots to the acre, though twenty-five tons is not an unusual outcome of intensive farming.

It is safe to say therefore that a million of acres planted to beets would yield under intensive culture a quantity of sugar sufficient, with the Louisiana product, for domestic consumption. When he recalls what that consumption is and how rapidly it is increasing, Prof. Wiley sees that in the beet sugar industry may lie the salvation of American agriculture. That American farmers are beginning to appreciate the value of the industry is evident from its growth. In 1887 the total production of beet sugar in this country was only 255 tons; in 1896 it was 40,000 tons. This year the farmer has a much stronger incentive to plant beets than ever before; for, whereas Cuba before the outbreak of the insurrection exported upward of 1,000,000 tons of sugar, her surplus product fell last year to a tenth of that amount. Much the greater part, consequently, of the 2,000,000 tons of sugar annually required by the United States will, during the next twelvemonth and for some years thereafter, have to be furnished, not by the sugar cane, but by the beet root; and there is no reason why our farmers should not supply it.

MUNYON TALKS ABOUT THE KIDNEYS.

"Wars and plagues," says Professor Munyon, "kill fewer people than diseases of the kidneys. In health these organs relieve the system of all poisonous matter."

"The heart is poisoned. Its action fails and dropsy appears. The nervous system is poisoned and convulsions are followed by death. Have you neglected your kidneys? Have you been a heavy drinker? Have you allowed a cold to settle in these organs? Have you overworked your stomach, liver, or nervous system, and thrown more strain on your kidneys than they can bear? No matter what the cause, trust our Kidney Cure. It is the joint product of the most eminent and successful physicians of the world, and has cured thousands of cases. I will guarantee that my Kidney Cure will cure 95 per cent. of all forms of kidney disease. When the disease is far advanced and there are other complications patients had better send a four-ounce vial of their urine, with full symptoms. We will then make a careful analysis of the water, and advise the best course to pursue to get well, absolutely free of charge."

SECOND WARD ROW GETS INTO COURT

WILLIAM WARD, THE DRAYMAN, SENTENCED.

Attacked Adam Apfel With a Heavy Club—Must Pay \$20 or Serve 20 Days—Burns Claims to Be Damage Suit Plaintiff—Two Drunks to Rake Stones.

William Ward, the well known drayman struck Adam Apfel with a stake from the dray this morning, and later was fined \$20 and costs by Judge Phelps in the municipal court. As Ward had to pay the fine, he was committed to jail until the same was paid. The term not to exceed twenty days.

Ward and Apfel both live in the Second ward. Ward's cow was picketed in the street this morning, when Apfel started for town. Apfel claims that the cow stood in the path when he approached. When Apfel reached the cow, he said, he slapped her with his hand. The beast did not move out of the path, so Apfel, to use his own language, "kicked her with the flat of his foot." Ward saw the act, and when Apfel reached him, demanded his reason for striking the cow. Apfel said he made some joking reply, and went to jump on the dray to ride down town, not realizing that Ward was angry.

Struck On the Arms.
When he saw that Ward was mad, he stepped back. Ward took one of the stakes from the dray, and aimed a blow at Apfel. Apfel threw up his right arm to ward off the blow from his head, and was struck on the elbow. Ward raised the stake again, and Apfel threw up his left arm. This time the blow landed on his forearm, inflicting a flesh wound.

Apfel came down town to swear out a warrant for Ward, charging him with assault and battery. Ward was arrested, and brought before Judge Phelps. Then the judge suggested to Ward that he had used considerable force, but Ward replied to the effect that he "ought to have finished him."

"He has been making trouble for me for three years because I pasture my cow in the street," said Ward. Judge Phelps then explained to Ward that there was an ordinance forbidding the pasturing of cattle in the street, and sentenced the defendant to pay a fine of \$20 and costs or go to jail not to exceed twenty days, or until the fine and costs were paid. Ward chose the term in jail, so the commitment was issued.

Prisoner's Odd Story.
John Burns of 430 West Lake street, Chicago, who claims he has commenced suit against the shoe firm of M. D. Wells & Co. for \$10,000 damages, was arrested yesterday afternoon in this city by Chief Hogan and Officer Appleby on a charge of vagrancy, and was this morning sentenced to sixty days in jail. John McCann, who claimed to be Burns' partner, was given the same sentence, while Arthur Schirley, another hobo, was given thirty days. Burns said that three years ago he worked in the state's prison at Waupun, as a citizen, for the firm of M. D. Wells & Company and that an accident happened to the machine on which he was working. He said the accident caused a serious injury to his eye, and the alleged suit had been brought in consequence. When arrested here, he claimed to be on his way to Waupun to get witnesses for his suit.

Examined Schirley's Hand.
Schirley was the next man to talk. He claims to be a working man, so to prove his story Judge Phelps with the aid of a powerful glass, made a close examination upon his palms. His story proved a scandal as there was nothing horny about his hands.

McCann then gave the court a thrilling outline of the way he rode brake beams at night and slept in hay stacks and begged in day time. He said he was on his way to the wheat fields of Dakota where he helped plow in the fall. He further stated that he was a first class farm hand but that he couldn't milk cows. When he was given sixty days in jail he looked sad, but said nothing.

Burns referred Judge Phelps to Judge Mallory of Chicago, and Hartley Clifford of Milwaukee, and the court said he would write letters to them. Clifford, it will be remembered, was tried for shooting Captain Pugh of Racine. Burns said that Clifford was now keeping a saloon in Milwaukee.

Drinks to Rake Stones.
Judge Phelps inaugurated a novel system this morning, when he was called upon to pass upon the cases of Benjamin Dickson and William Kelley, who were arrested by Officer Brown yesterday on a charge of drunkenness. Both young men live here. They were found guilty and Judge Phelps sentenced them to rake the loose stones off of the public streets for a distance of one block each, rather than to send them to jail.

Whether or not this rule will be followed by the court remains to be seen. This is the first instance where such a sentence has been imposed. The young men will be provided with a rake, and their territory assigned them, at once.

Funeral of Thomas Whelan.
The funeral of the late Thomas W. Whelan was held this morning from St. Patrick's church. The interment was in Mount Olivet cemetery. The pall bearers being Edwin Connors, Peter Hines, Edwin Clark, Charles Hines, James Minahan and William Spicer.

CAGE ALL BAD MEN IN SHORT ORDER

AUTHORITIES MAKE A FINE SHOWING.

State's Prison Records Prove that Few Guilty Men Escape—Report That Looks Black, is Really One That is Creditable to the County and Its Officers.

Pock county is now represented at Waupun by more convicts than have been sent from any other county in the state outside of Milwaukee county.

At the close of the year ending September 30, 1896, this county had twenty-six men confined within prison walls against forty-two from Milwaukee county. This is not a record that the average citizen of this county will be proud of and is not one that they will take special trouble in heralding about the county, but it shows that District Attorney Jackson has been busy, and has done his work well.

The seventh biennial report of the Wisconsin State Prison for the two fiscal years ending September 30 1896, being part of the report of the state board of control, has just been received in this city and gives these figures. Seventy-seven prisoners are now confined for life, and of these Rock county comes in for second place with five, while Milwaukee county takes the lead with ten.

Officers Do Work Thoroughly.

The county also gets second place for female prisoners, having one representative while Monroe and Milwaukee county are tied for first place with two each.

These figures do not necessarily show that Rock county's population inclines toward criminality, but rather that while no more crimes are perpetrated here the offenders are invariably brought to justice. The sheriff's office and the city police have been active in hunting down violators of the law and the district attorney has been vigorous and successful in prosecuting. Very few criminals have operated in this section during the past few years, who have not been brought to book. Therefore people should be proud of the record rather than ashamed of it, as it shows that lawlessness is speedily punished by the vigilant authorities.

CHICAGO MARKETS BY WIRE

Robert Lindblom's Letter On the Condition of Crops and Trade.

Chicago, May 27.—[Special]—

The wheat market made a new record after a feeble attempt to bull over some nonsensical news about England being somewhat in opposition to the powers. Such a proposition is absurd. England has nothing to do with it except to agree to everything. Foreign markets were lower. The price current reported no improvement but some deterioration. Illinois is worse, but our own Michigan report is pretty good with no present danger from the fly. We had a fair shipping demand here, and receipts in the northwest are not oppressive and still too large. The spring wheat prospects are of course glorious, as usual at this time, and the bad outlook in France is regarded as a "chestnut" but it may tell later on. At present the crowd will be governed by the good reports nearer home and by the weakness at winter wheat centers. St. Louis has led the decline today. I thought wheat would do to buy at 69½ but as usual every stand taken on the bull side is wrong and it is serving us right trying to flirt with the wrong side, but for all that it is the thing to do to believe in short on all bulges and go long for rallies on good breaks. Corn has declined fully a quarter but oats are practically unchanged and pork has ruled steady with occasional trades below yesterday's closing price. Pork ought to sell a good deal higher, but not necessarily right away.

FORM LOCAL BOARD OF UNDERWRITERS

INSURANCE AGENTS MET THIS AFTERNOON.

New Law Does Away With Inspector Hershey's Position, and Puts His Duties in the Hands of the Agents Themselves—To Gather at Five O'Clock.

According to the new regulation enacted by the last legislature, the insurance agents themselves will make the rates to be charged for insurance hereafter.

The position of state insurance inspector until recently held by H. H. Hershey of Racine, is therefore abolished.

The local agents will meet this afternoon at 5 o'clock, at the office of Hayner & Beers to form the "local board of underwriters" under the new law. Mr. Hershey will be present, it is expected, the meeting being held late to accommodate him, and others.

Mr. Hershey has been hired by the insurance companies of the state, to make their rates, for some time past, and is thoroughly conversant with the business.

All the local agencies, will, it is said, be represented at the meeting.

"The new rule simply means that we will make our own rates as an underwriter's board in the future" said a local agent who was interrogated this afternoon. "That is all there is to it. The organization will be perfected at this meeting."

Miss ELIZA CARLSON gave a bicycle party last evening. After a spin around the city light refreshments were served at her home on South Main street.

FOR LITTLE FOLKS.

A cantankerous cat of contentious mind. To combative and quarrelsome ways inclined. Met a pugacious pup whose proclivities were to besprinkle the lawn with that puss cat's fur.

And this is the dog.

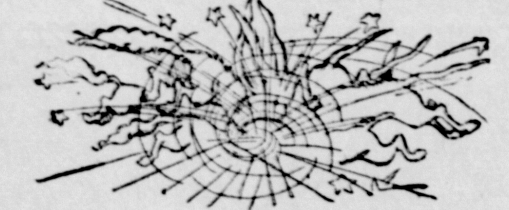

And this is the cat.

Now, what do you think of such actions as that?

The cat caterwauls and scolded and spit till she nearly expired in a cat-leptic fit. And the dog snapped and snarled in impolite tones. Seemed threatening to pick Mistress Pussy Cat's bones.

And here is the dog.

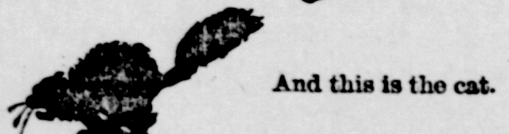

And here is the cat.

Now, what do you think of such actions as that?

Now, quarrelsome words, as every one knows, are apt, if indulged in, to lead unto blows. And those who are given to combative ways quite often conclude that to fight seldom pays.

Now this is the dog.

And this is the cat.

What now do you think of such actions as that?—Arthur J. Burdick in Chicago Record.

The Dinner Party.

Polly wished to give a dinner party to her cats, Diogenes, John and Brother, so her mother gave her a dime and told her she might buy three fish at the market.

Polly trotted away, and when she came back with the fish she called the three cats and tried to get them ready. She tied a ribbon around each of their necks, but it was not an easy task, because they smelled the fish.

Then she spread a towel on the floor and set three plates on it and tried her best to make the cats sit down beside them. But they cried, and jumped about, and behaved so badly that at last she shut them outside the door.

Then she put a fish on each plate and a little dish of catnip in the middle and opened the door.

Diogenes was the last one in, but it wasn't because he wanted to be polite, for he jumped over John, who was small, and ran right under Brother, the great big striped cat, and was first at the table after all. On the table, I mean, for he ran right across the cloth, sniffed at all three plates, snatched the biggest fish and dragged it under the stove.

John took his fish into his corner behind the cupboard, and Brother carried his under the sink.

After a minute Diogenes left his fish and went first to one cat and then the other and tried to take theirs. But John slapped him, and Brother growled so that he was afraid, and went back to his own fish under the stove.

Polly was shocked at such behavior and ran to tell mother, who only laughed.

"I was afraid they'd disappoint you," she said. "But never mind. They are having a good time in their own way."

So Polly went back and picked up the plates and the towel and the catnip. And she peeped under the stove and behind the cupboard and under the sink, and she saw mother was right.—Youth's Companion.

Chewing Gum.

It seems dreadful to think that any dear boy or girl who reads this chews gum. There is nothing true which can be said in favor of such a habit. It is uncleanly, unhealthy and disgusting. It ruins the teeth, the throat and the digestion, no matter who tells you otherwise. About the appearance of the gum chewer the Boston Herald has this to say, and it's true, every word and more:

"Gum chewing is a most unpleasant spectacle for the disinterested observer. That wagging of jaws looked at persistently has been known to drive one insane, and the desire to seize the chewer and make him or her disgorge is only controlled by getting out of the way as quickly as possible. The chewing never comes to anything. The eternal chop, chop of the jaws bring into play a set of muscles that eventually disfigure the face, while causing an expression of bovine idiocy to settle upon it. Where is the human being's natural vanity while that piece of gum is being masticated? If the victim of this gum chewing habit will kindly look at herself or himself in the mirror during an hour or so of the operation, it may have the effect of curing her or him of it."

GIVES STRENGTH TO MEN

Free To All Who Are Weak And Worn

A METHOD TO CURE AND INCREASE THE POWER.

It is a remarkable fact that a man never appreciates the sufferings of others until he himself has passed through the fire of pain or remorse. Then it is that he looks around for those who are suffering; he wants them to profit by his experience; he gives his time and money gladly for the

benefit of others and never tires of his zeal. There are plenty of men weak and worn out, struggling with remorse and fear, the natural outcome of habits that brought incapacity; a sense of loneliness and a feeling as if the best side of life had been banished forever. Such men should write to Thomas Slater, Box 494, Kalamazoo, Mich. He will send free by mail, in a plain, sealed envelope, full particulars about the method he used, and this will enable any man to get a complete cure at home. It is the method that Mr. Slater used to cure himself of the troubles that sap the strength and vigor and also enlarged his organs to natural size. The cure was complete, so satisfying and such a wonderful change from his former condition that he will gladly tell others all about it, sending full particulars. He figures that he doesn't know of a better way to show his appreciation of his own cure and sufferings of others. There must be generous men in this world to off set the tide of avarice. Write to Mr. Slater—it will cost nothing for his description and method.

Have SOMETHING NEW.

A Scientific and Medical Novelty? You seen this?

There has just been published a very unusual and valuable little book entitled "WHEN AND HOW," a copy of which should be owned by every family and carefully preserved.

The book is unusual because, in addition to being the best hand book on health that we have ever seen, it is also a guide to the use of a new and complete line of the latest and most valuable remedies known to the "regular" medical profession.

The "regular" profession means the Allopathic school of medicine; and these remedies are scientifically prepared from the latest and best prescriptions of the leading Allopathic physicians of Europe and America. They are put up in tablet form, placed in colored glass vials and hermetically sealed, so that their curative properties are preserved for years, unaffected by light or air.

These medicines, "Chauncey's Pocket Prescriptions," contain no morphine, strychnine, chloral, cocaine, arsenic, or other irritant poison in any form, are perfectly safe to use by anybody at any time, and cost but 25 cents.

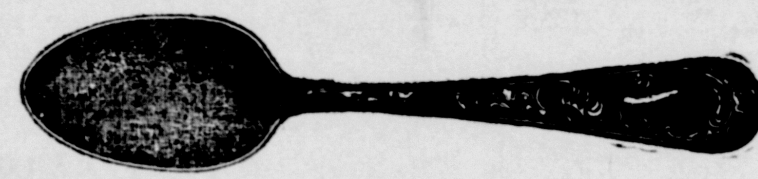

This combination of the best scientific results in the production of the remedies together with the most advanced medical knowledge in the preparation of the book "When and How," offers new and great advantages to that large majority (estimated at over 75 per cent.) who call in an Allopathic physician when they require the services of a doctor. It enables them to do their "home doctoring" in an intelligent, safe and efficient manner, and in their own "school" of medicine.

Anyone who will examine the book will be convinced by the spirit of candor which pervades it that it is as safe as it is valuable—it both respects a decided novelty. Moreover it does not contain a line of objectionable matter.—The Latest Medical News.

[We have made inquiries here and find that with customary enterprise an agency for these remedies has already been secured by

E. O. Smith & Co., next to postoffice who will be pleased to present a copy of the book, "When and How," free, to any one who will call and ask for it.—Ed.

LADY'S AND MAN'S WHEEL GIVEN AWAY.

Two thoroughly high grade Bicycles are to be seen in our window, which, before long, will be in the possession of some of our customers.

OUR PLAN:

With every 50c purchase of Tea or Coffee we issue you a numbered coupon on these wheels. After 1000 of these tickets have been given out, the holder of the lucky number has the choice of either wheel.

WE GIVE NOTICE

That the quality of our Teas or Coffees is not dropped in the least nor is the price strengthened. We merely offer these machines as special trade bringers; nothing more; nothing less. We believe that much interest in our Tea and Coffee department can be awakened and our old time reputation for the very best of goods shall be sustained and strengthened. We absolutely guarantee every pound of Coffee or Tea which leaves our store to be perfect.

LOW PRICED GROCERIES:

We are steadily increasing our acquaintance among economical buyers of provisions of all kinds. People who deal with us once buy of us a second and third time. High qualities and great assortment with the well oiled hinge of low prices gives us an introduction and hold on trade that cannot well be passed by.
